

Management Statement on ISCC CORSIA Compliance

Axiom Aviation is dedicated to conducting our trading activities with a strong commitment to environmental responsibility and sustainability. As part of our pledge to reduce the environmental impact associated with our trading operations, we hereby commit to comply with the International Sustainability and Carbon Certification (ISCC) CORSIA requirements.

Recognizing the unique role of trading companies in the supply chain, we understand the importance of actively engaging with initiatives like ISCC CORSIA to address the environmental challenges associated with international trade. Our management is fully committed to establishing and maintaining the necessary systems, processes, and controls to ensure compliance with ISCC CORSIA standards.

This commitment includes actively seeking and promoting environmentally friendly products, engaging with suppliers who share our commitment to sustainability, and participating in carbon offsetting programs as required by ISCC CORSIA.

We recognize that the effective implementation of ISCC CORSIA standards requires collaboration with our partners, and we are committed to working closely with them to collectively achieve our sustainability goals. Our management will monitor and assess the environmental impact of our operations regularly and transparently report on our progress towards ISCC CORSIA compliance.

Through our commitment to ISCC CORSIA requirements, Axiom Aviation aims to contribute to a more sustainable and responsible industry.
